

My recovery is slow, the effects will longer and I can't make much response. There is no meaningful list. But if you know and describe what you want the Archives can generally understand and provide it. Just give them a good description. The 26 are scarce and expensive. Pictures are more easily identified than documents but they do fairly well on them. Sorry I can't keep up with day to day needs and thus can't now and for the immediate future be of help in answering questions. I can't keep up with the work I must do daily. Best of luck, HW 12/13/75
